MONS. PLONGEON'S

DAGUERREIAN

ROOMS.

The Daguerreotype Department

Of this Establishment is managed by a skilful and attentive Artist, Mr. Silviera. This gentleman has universally been fortunate in securing good Pictures, especially of

INFANTS,

Which he succeeds in taking in good style in TWO SECONDS.

The Photographic Department.

Daguerreotypes on paper is under the immediate supervision of Mons. Plongeon, who trusts that by giving his whole attention to that Department he will produce pictures unsurpassed in this city.

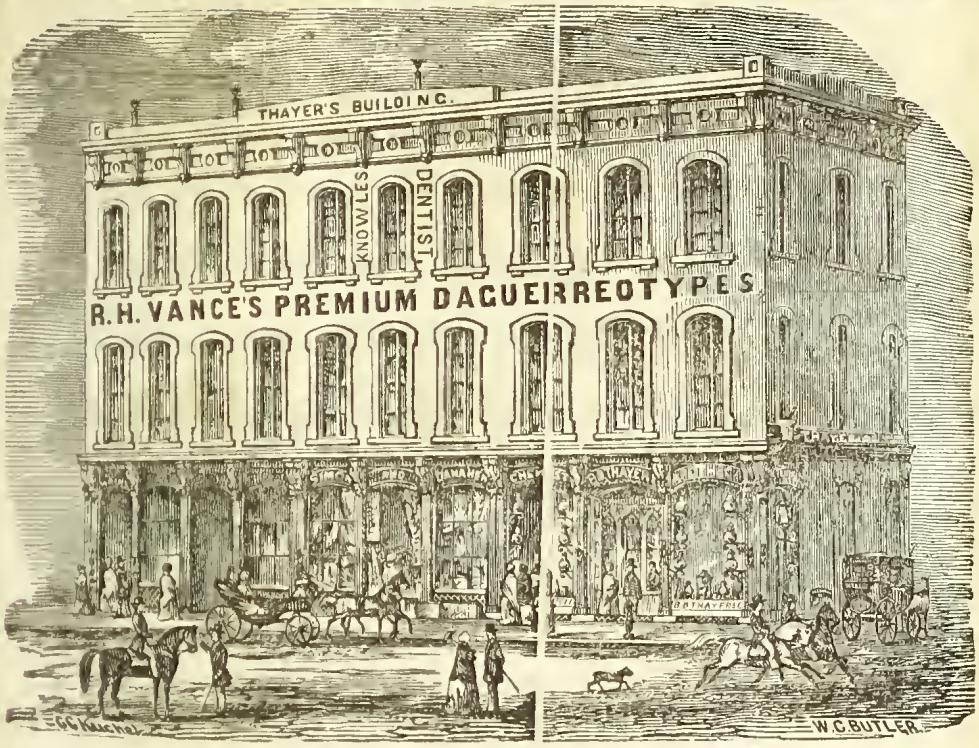
STILL TAKES THE LEAD!



R. H. VANCE

Has, by the superiority of his Daguerreotypes, again received

THE FIRST PREMIUM

Awarded by the State Fair, being the second time received

AGAINST ALL COMPETITORS,

And he has lately made such improvements in his operating rooms, arrangement of lights, etc., as will enable him to still keep the station he now holds—"AHEAD."

Mr. Vance has Three Improved Lights,

ALL OF DIFFERENT ARRANGEMENTS,

Which enables him to suit the light to the features and complexions of all, and gives him facilities which no other Artist in the United States possesses, especially in taking GROUPS, or

Children's Daguerreotypes.

He has also secured the services of

One of the Best Photographers in the World,

And a New York Artist of superior merit, for painting them either in OIL or WATER COLORS.

DR. D. BURBANK,

DENTIST.

EXPRESS BUILDING,

N. E. cor. Montgomery and California sts.,

SAN FRANCISCO, CAL.

Would call the attention of persons wishing to have Teeth filled, to the fact that his operations on the Teeth are not excelled by any other Dentist in the City.

The greatest pains will be taken to make the Filling permanent.

To those wishing Teeth extracted, he would say that he has always met with the greatest success in

Removing Carious Teeth and Fangs.

CHLOROFORM and ETHER, from the best manufacturers in the States, I use with GREAT CARE.

I would say to those wishing

ARTIFICIAL TEETH,

That I model my Teeth expressly for the individual customer, so that to those unacquainted with Dental operations it may be well to say, Dentists usually select from an assortment of Artificial Teeth—larger or smaller, as they may have capital—separate Teeth to form the set. If they use Gum Teeth, there will be visible in the wearer's mouth a perceptible difference between the appearance of not only the Artificial and Natural Gum, but between different sections of the Artificial Gum. I obviate this entirely, by manufacturing a set of Teeth with a continuous Gum, formed and colored expressly for the particular space to be filled, so that the greatest possible degree of naturalness and strength is attained.

A clear and distinct articulation of speech is restored. This important change is effected by having the inside of the Teeth and Gum of a natural form. To this form the tongue is readily adapted. This perfect adaptation of the tongue to the denture, prevents the hissing or muffled sounds in speaking or singing, so often observed in persons wearing Artificial Teeth.

DR. L. J. CZAPKAY'S

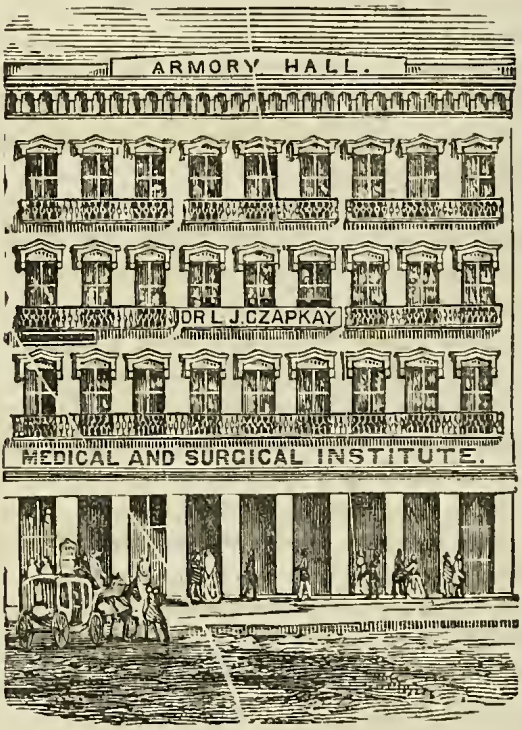
GRAND

MEDICAL & SURGICAL INSTITUTE

ARMORY HALL BUILDING,

Corner Montgomery and Sacramento Sts.,

SAN FRANCISCO.



ESTABLISHED FOR THE PERMANENT CURE OF ALL PRIVATE AND CHRONIC DISEASES, AND THE SUPPRESSION OF QUACKERY.

Attending and Resident Physician, Dr. L. J. CZAPKAY, M. D.,

Late in the Hungarian Revolutionary War, Chief Physician to the 20th Regiment of Honveda, Chief Surgeon to the Military Hospital of Pesth, Hungary, and late Lecturer on Diseases of Women and Children.

Particular attention given to the Diseases of Women and Children.

TO THE AFFLICTED!

DR. L. J. CZAPKAY, M. D.,

(Late of the Hungarian Army, and Chief Physician of the Hospital of Pesth,)

HAS ESTABLISHED IN THIS CITY A

MEDICAL INSTITUTE,

For the treatment of Diseases of the

BRAIN, LUNGS, LIVER, STOMACH, KIDNEYS, AND GENITO-URINARY ORGANS.

These last diseases the Doctor has been induced to add, in consequence of the daily evidence of the evils consequent upon the malpractice so generally pursued by advertising empirics, whose conduct exemplifies the truth that, "Man's inhumanity to man makes countless thousands mourn."

The Doctor's thorough knowledge of the principles of Physiology and Pathology, and the modus operandi of the agents embraced in our Materia Medica, is a guarantee of the assurance that all will be treated in accordance with the established principles of Medical Science, and in accordance with the improvements made therein. The gradual accumulation of valuable information since the days of Hypocrates, and the exclusion of such agents as have proved inert, have left the regular Practitioner the means wherewith to combat successfully the ills to which flesh is heir. Especially is this true in reference to that branch of the science to which cupidity has invited charlatanry, much to the detriment of the unfortunate and credulous. With a view to counteract the evils which flow from this source, the Doctor is happy to give the guarantee of a safe, speedy and effectual cure to all who seek his assistance, and complete immunity from evil after-consequences.

It often happens that the abuse of instinctive passion leads to fearful consequences, unless the aid of the Physician is made available to arrest these certain and ruinous results. Among the symptoms arising from this cause, the following may be enumerated:—Confusion of ideas, loss of memory, destruction of the nervous equllibrium, timidity and headache, loss of mental power, partial and complete dementia ; these oftentimes terminating in death. For the amelioration of these symptoms, and the avoidance of so fearful a consequence, the Doctor offers his services, and guarantees in all cases perfect satisfaction.

In Dysentery, Diarrhœa, Rheumatic Affections, and other diseases incident to this climate, assurance is given of speedy relief. All consultations by letter, or otherwise, free. Address to
